Foreword ................................................................. ix
Introduction .............................................................. xi
Preface ........................................................................... xiii

Computer Network Attack: The Operational Context

I  CNE and CNA in the Network-Centric Battlespace: Challenges for Operators and Lawyers
   Arthur K. Cebrowski ......................................................... 1

II Technology and Law: The Evolution of Digital Warfare
   David Tubbs, Perry G. Luzwick, Walter Gary Sharp, Sr. ............ 7

III A Different Kettle of Fish: Computer Network Attack
   Roger W. Barnett ............................................................ 21

IV Information Operations, Information Warfare, and Computer
   Network Attack: Their Relationship to National Security in the Information Age
   Daniel T. Kuehl ............................................................. 35

Computer Network Attack: The Legal Context

V International Law, Cybernetics, and Cyberspace
   Anthony D’Amato .......................................................... 59

VI Computer Network Attack as a Use of Force under Article 2(4) of the United Nations Charter
   Daniel B. Silver ........................................................... 73

VII Computer Network Attacks and Self-Defense
   Yoram Dinstein ............................................................ 99

The opinions shared in this paper are those of the author and do not necessarily reflect the views and opinions of the U.S. Naval War College, the Dept. of the Navy, or Dept. of Defense.
VIII Self-Defense against Computer Network Attack under International Law
Horace B. Robertson, Jr. ................................ 121

IX Computer Networks, Proportionality, and Military Operations
James H. Doyle, Jr. .................................... 147

X Some Thoughts on Computer Network Attack and the International Law of Armed Conflict
Louise Doswald-Beck .................................. 163

XI Wired Warfare: Computer Network Attack and the \textit{Jus in Bello}
Michael N. Schmitt ................................... 187

XII Proportionality, Cyberwar, and the Law of War
Ruth G. Wedgwood .................................. 219

XIII Neutrality and Information Warfare
George K. Walker ..................................... 233

XIV Information Operations in the Space Law Arena:
Science Fiction Becomes Reality
Douglas S. Anderson and Christopher R. Dooley. .............. 265

XV Fourth Dimensional Intelligence:
Thoughts on Espionage, Law, and Cyberspace
David M. Crane ..................................... 311

XVI Computer Network Attacks by Terrorists:
Some Legal Dimensions
John F. Murphy ..................................... 321

XVII Meeting the Challenge of Cyberterrorism:
Defining the Military Role in a Democracy
Charles J. Dunlap, Jr. ................................. 353

XVIII "Weapons like to Lightning"
US Information Operations and US Treaty Obligations
Jeffrey H. Smith and Gordon N. Lederman .............. 375
International Law of Armed Conflict and Computer Network Attack: Developing the Rules of Engagement
Brian T. O'Donnell and James C. Kraska ........................................ 395

James P. Terry ................................................................. 421

Is It Time For a Treaty on Information Warfare?
Phillip A. Johnson .......................................................... 439

Appendix
An Assessment of International Legal Issues in Information Operations ........................................ 459

Contributors ........................................................................... 531
Index ..................................................................................... 541
